

# RICHARD VAN WERKHOVEN

Ambitious and passionate game designer with over 19 years of professional development experience and 38+ years immersed in gaming. My expertise lies in shaping immersive gameplay and crafting fun and dynamic mechanics through collaborative teamwork. Bring conceptual worlds to life, while designing intuitive and challenging experiences that engage and immerse players

When designing game worlds, I focus on a player-first approach, ensuring interactions are intuitive and rewarding. My goal is to create immersive, gameplay and narrative driven experiences that evoke excitement and fulfillment. Whether balancing mechanics, environments, or crafting memorable spaces, I aim to fully engage and immerse players
